

### **REMARKS**

Applicant submits this paper at the request of the Examiner, to complete the Amendment as previously submitted on February 26, 2010, which included a substitute specification. The previously-submitted substitute specification had a portion omitted; however, the omitted portion was previously of record on PAIR, presumably having been submitted in the Amendment filed on November 13, 2003, which referenced a substitute specification. Thus, the present substitute specification merely duplicates previous submissions and contains no new matter.

As stated above, the complete substitute specification as filed herewith includes a marked-up copy and a clean copy of the substitute specification, which are identified by the titles, "Marked-Up Specification" and "Clean Specification" in the header of each page, as requested by the Examiner.

Applicant submits that the February 26 Amendment is now complete, and the application is in condition for issuance.

**CONCLUSION**

Applicant submits that the February 26 Amendment under § 1.312 is now complete, and the application is in condition for issuance.

Respectfully submitted,  
BANNER & WITCOFF, LTD.
